

**SINGLE SECTION MANUALLY ADJUSTABLE FLOW-DIVIDER
VALVE FOR FIXED LIQUID-TO-GRANULAR RATIO
PRE-WET MATERIAL SPREADING**

Note: The liquid pump, using this valve and plumbing configuration, will only operate while the main conveyor is in use and the 3V2P selector valve directs hydraulic flow towards the 800-VALACE1F valve.

800-VALACE1S

SINGLE SECTION SOLENOID VALVE FOR ADJUSTABLE LIQUID-TO-GRANULAR PRE-WET MATERIAL SPREADING

Note: The liquid pump, using this valve and plumbing configuration will only operate when the main conveyor is in use.
